Dear sur/Madam,

RE: KUNKUJANG GUNJUR NURSERY SCHOOL PROJECT IN THE GAMBIA

With reference to the above captioned, with respect to the donation of 27,241 Euros to my school which we at the school have never received. The team was part of Antwerp Banjul challenge was head by Mr. Cor de Bresser. The team name was LOC@Zwijndrecht with team number 1501 arrived in The Gambia in October 2013. Tineke Ruyter was the team leader.

We received only a set of school uniforms for the kids but the money never arrived and hence we are told this was collected and surrendered to the school authorities by Tineke Ruyter.

She came and prepared school uniforms personally and provided it to the school but there was no money she gave to the school management.

Therefore, we are still soliciting your support for the completion of the class rooms and we recommend you to work with Mr Cor de Bresser president of helping hands foundation and the organizer of Antwerp Banjul Challenge,. The class room under construction not complete with is affecting our children's education.

Yours sincerely

Head master
